

CLAIM AMENDMENTS

1. **(Currently Amended)** A cleaning apparatus comprising:

a ~~one-piece blow-molded~~ body having a unitary handle and a support for receiving a debris removing member;

the handle being formed of a transparent material ~~having an open end opposite from the support; and a cap mounted on and closing the open end of the handle.~~

2. **(Currently Amended)** ~~to the~~ The apparatus of claim 1 wherein the support further comprises:

first and second spaced bearing surfaces adapted to support a rotatable tape roll about the support.

3. **(Original)** The apparatus of claim 2 further comprising: means, carried on the support, for capturing the tape roll on the support.

4. **(Original)** The apparatus of claim 3 wherein the capturing means comprises:

a plurality of circumferentially spaced projections formed on one end of the support.

5. **(Original)** The cleaning apparatus of claim 1 wherein: the particle removing material is a wound substrate having an adhesive outer surface.

6. **(Canceled)**

7. **(Canceled)**

8. **(Canceled)**

9. **(Canceled)**

10. **(Currently Amended)** The apparatus of claim 9 1 further comprising: a label mounted on the handle, the label carrying decorative indicia visible through the handle.

11. **(Original)** The apparatus of claim 10 wherein the label comprises:
 an opaque sheet having decorative indicia on a surface contacting the handle, the decorative indicia visible through the handle.

12. **(Currently Amended)** The apparatus of claim 10 wherein the label further comprises: a transparent sheet having decorative indicia viewable through the handle.

13. **(Currently Amended)** The apparatus of claim 9 1 further comprising:
 an insert mountable in the handle, the insert carrying decorative indicia visible through the handle.

14. **(Original)** The apparatus of claim 13 further comprising:
 a label mounted on the handle, the label carrying decorative indicia visible through the handle; and
 the decorative indicia on the insert and the decorative indicia on the label forming an overlaid combined decorative indicia visible through the handle.

15. **(Original)** The apparatus of claim 13 wherein the insert further comprises:
 means, carried on the insert, for fixedly positioning the insert within the handle.

16. **(Original)** The apparatus of claim 13 wherein:
the insert is formed of a flexible material to enable the insert to be inserted through an open end of the handle.
17. **(Withdrawn)** The apparatus of claim 13 wherein: the insert is a decorative body carried with the cap and disposed within the handle when the cap is mounted on the end of the handle.
18. **(Withdrawn)** The apparatus of claim 17 further comprising: a stem depending from the cap, the decorative insert carried on the stem.
19. **(Withdrawn)** The apparatus of claim 13 wherein the insert comprises: a three dimensional decorative body loosely disposed within the handle.
20. **(Currently Amended)** The A cleaning apparatus comprising:
a body including a handle and a support, the support receiving a cleaning member;
a handle formed of a transparent material; and
a member carrying decorative indicia carried on the handle, with the decorative indicia visible through the handle.
21. **(Original)** The apparatus of claim 20 wherein the decorative member comprises: a label mounted on the handle, the label carrying decorative indicia visible through the handle.
22. **(Original)** The apparatus of claim 21 wherein the label comprises: an opaque sheet having decorative indicia on a surface contacting the handle, the decorative indicia visible through the handle.

23. **(Currently Amended)** The apparatus of claim 21 wherein the label further comprises: a transparent sheet having decorative indicia viewable through the handle.

24. **(Original)** The apparatus of claim 20 further comprising: an insert mountable in the handle, the insert carrying decorative indicia visible through the handle.

25. **(Currently Amended)** The apparatus of claim 24 further comprising:

said decorative indicia carrying member comprising a label
mounted on the handle, the label carrying decorative indicia visible through the handle; and

the decorative indicia on the insert and the decorative indicia on the label forming an overlaid combined decorative indicia visible through the handle.

26. **(Original)** The apparatus of claim 24 wherein the insert further comprises:

means, carried on the insert, for fixedly positioning the insert within the handle.

27. **(Original)** The apparatus of claim 24 wherein: the insert is formed of a flexible material to enable the insert to be inserted through an open end of the handle.

28. **(Withdrawn)** The apparatus of claim 24 wherein:

the insert is a decorative body carried with the cap and disposed within the handle when the cap is mounted on the end of the handle.

29. **(Withdrawn)** The apparatus of claim 28 further comprising:

a stem depending from the cap, the decorative insert carried on the stem.

30. **(Withdrawn)** The apparatus of claim 24 wherein the insert comprises:

a three dimensional decorative body loosely disposed within the handle.
